## OUTSTANDING STUDENT

Chloe Wang | Y2, EduExperts Henderson Centre

### From the student:

Hi, I'm Chloe Wang from EduExperts' Henderson Centre. I have been enrolled in English classes since I began in Year 1 last year. I have noticeably improved in reading through phonics. The English learning content is interactive with high quality standards. I have continuously achieved outstanding results at school and have become more and more confident in reading, spelling, and writing. I enjoy learning at EduExperts' Henderson Centre because the teachers are considerate, helpful and knowledgeable in various academic activities. I have also enrolled in a maths class too. EduExperts have provided the teaching techniques and methods which have allowed me to effortlessly achieve academic success.

### From the teacher:

Chloe is an eager student who strives for excellence in her learning. She came to class ready to learn with a fantastic attitude and has never missed a lesson. She has demonstrated an amazing grasp of the course content and diligently completed all the assigned homework to a high level. Her keenness to learn has enabled her to excel in her phonics and sight words and she learnt how to sound and read in less than a term.

   [eduexpertsnz](https://www.eduexpertsnz.com)

At the beginning of this year, she began to write simple sentences using correct spelling in the Year 2 English class. She is currently challenging herself to go to the Year 3 writing class. It is very pleasing to see her effort being rewarded with continuous improvement.

## EVENTS & NEWS

- 1) EduExperts 2<sup>nd</sup> English Competition
- 2) Henderson Centre Relocation Notification

# 1) EduExperts 2<sup>nd</sup> English Competition

EduExperts held the 2<sup>nd</sup> English competition (Round 1) on the 15<sup>th</sup> August. The competition was open to all Year 5 to Year 8 EduExperts students.

The top 20 students from each level will be invited to compete in the finals at the end of this year.

EduExperts hosts a variety of English, Maths, Spelling and Robotics competitions each year. Competitions play an important role in motivating students to perform and excel.

These competitions also offer a chance for participants to gain substantial experience, showcase their skills and discover their personal strengths.

We hope to see you at our next competition!

## 2) Henderson Centre Relocation Notification

Dear students, parents and caregivers,

The Henderson Centre has moved to Level 1, 7 Trading Place, Henderson. All classes will be held at the new location from August, 2021.

There are ample car parks around the area and at the side of the building.

Please familiarise yourself with our new location and see you there!

EduExperts Henderson Centre

## EduExperts' English Course for Primary School Students

EduExperts' English course for primary school students follows a student-centred approach to learning. It has a transdisciplinary curriculum framework that has been designed to not only ensure students are equipped with the knowledge and skills essential for future study but also focuses on the development of the whole child as an inquirer. This creates a stimulating and challenging learning environment in which to learn. As a result, a child's natural curiosity, creativity and ability to reflect are encouraged and nurtured. So, while they receive a solid foundation in the core principles of the language: grammar, vocabulary, writing, reading, speaking and listening, they are also encouraged to take ownership of their learning, collaborating with teachers to deepen understanding and increase their confidence and motivation. By learning through inquiry and reflection, students develop knowledge, conceptual understandings and skills that develop a life-long love of learning. They are well-equipped to deal with the challenges and opportunities they will face in an everchanging world. Themes that run throughout the course include community and culture, science, technology and the natural world.
